The Briscoe Center for American History at the University of Texas at Austin offers a wide variety of material for the study of Mexican American life, history, and culture in Texas. As with all ethnic groups, the study of Mexican Americans in Texas can be approached from many perspectives through the use of books, photographs, music, dissertations and theses, newspapers, the personal papers of individuals, and business and governmental records. This bibliography will familiarize researchers with many of the resources relating to Mexican Americans in Texas available at the Center for American History. For complete coverage in this area, the researcher should also consult the holdings of the Benson Latin American Collection, adjacent to the Center for American History.
