

**EXXONMOBIL HISTORICAL
COLLECTION: PHOTOGRAPHS,
1873-1999.**

Restricted access: Photographic prints are immediately available for use, but access to transparent media, which includes negatives, slides and transparencies, is restricted. Advanced notice is required for viewing these formats as well as prints stored together with negatives. Please contact the archivist for the ExxonMobil collection or a reference archivist to make arrangements to see these images.

Copyright: Exxon Mobil Corporation retains copyright to all images created by the corporation and its predecessor and affiliated entities.

Note to researchers: When requesting images from containers with the prefix **3rdFI**, please include the range of images on the yellow call slip. For example, if you would like to see specific images in container **3rdFI/2.7** [p. 254 of this finding aid], you could write “New York – General thru Brooklyn Refinery” on the call slip.

MOBIL CORPORATION, 1872-2003

Series IV. Photographs, 1873-1999

Affiliates, Subsidiaries and Other Companies, 1879-1970s

This subseries of photographs documents personnel and products from companies that Mobil and its predecessors eventually acquired. Of note are photographs of the multi-level drilling barge *W. M. Keck, Sr.*, of the Superior Oil Company. Service station images can be found here as well as in the *Geographic* and *Marketing* subseries.

Affiliates, Subsidiaries and Other Companies

Caterpillar, Inc.

- 2.104/6.3A Contract signings, 1989 [13 prints]
Lubricant Program 100 million gallon milestone, 1996 [8 prints]

General Petroleum Corporation

- 2.207/I152 General, 1925-1949 [3 prints]
Bulk Plants: California, Oregon, Washington, Nevada, Arizona, circa 1929-1931 [445 prints]

- 2.104/6.3A Exploration and Production
Torry (coring vessel) and crew, 1956 [7 prints]
Public Relations Department, 1948-1959 [19 prints]
Service Stations

- 2.207/J55b 1929, undated [6 prints]
Fuelling an Airplane with Violet Ray, 1929-1930 [1 print]

- 2.104/6.3A Transportation, circa 1920s- 1950s [50 prints]
2.207/I141 General Pipe Line Company of California, 1912
Album; 77 prints

Gilmore Oil Company

- 2.104/6.3A Miscellaneous, circa 1930s [9 prints]
Service Stations, ca 1934-1937 [36 prints]
Transportation, circa 1930s [20 prints]
Kordite Corporation, 1947-1975 [14 prints; 14 slides]
Lubrite Division, circa 1930s [7 prints]

Magnolia Petroleum Company

- 2.207/J7 Headquarters, 1917-1973 [9 prints]
Magnolia Building, circa 1922 [album]
2.104/6.3A Sabine Gasoline Plant, circa 1955 [1 print]
Personnel, circa 1930 [1 print]
Public Relations, 1936-1957 [4 prints]
Miscellaneous Marketing, 1917-1958 [14 prints]
Service Stations, 1918-1937 [10 prints]

- 2.207/K136 Service Station Types, 1937-1938 [includes dimensions, locations and features]

- 2.104/6.3B Test Cars, 1932 [3 prints]
2.104/6.3A Magnolia Pipe Line Company, 1961 [2 prints]
2.104/6.3B Mobil Asia Pacific Pte. Ltd. (MAPPL)

- Advertisements, circa 1994 [16 transparencies]
 - Overview [slide presentation], circa 1990 [74 slides]
 - Miscellaneous [photos used in Asia Pacific book], circa 1994 [36 slides]
 - 100 Years in Singapore reception [with Allen Murray], 1994 [12 prints]
- 2.104/6.5B Mobil Chemical Company
- Facilities
 - Beaumont, Texas
 - Chemical Plant meter station, 1963 [1 negative]
 - Plant, undated [20 slides]
 - Metuchen, New Jersey
 - Research, undated [20 slides]
 - Washington, New Jersey
 - Consumer Plastics Plant, undated [31 slides]
 - High Point, North Carolina
 - Chemical Coatings, undated [97 slides]
 - Rochester, Pennsylvania
 - Chemical Coatings, undated [12 slides]
 - Nichols, Florida
 - Chemical Coatings, undated [100 slides]
 - Phosphate mines, 1978-1983 [
 - Edison, New Jersey
 - Chemical Plant, undated [59 negatives, 4 prints]
 - Coatings plant, undated [12 slides]
 - Pauline Lemieux, undated [5 prints]
 - Mobil World*, 1978 [15 slides]
 - R&D Upstream, undated [17 slides]
- 2.104/6.5C Canandaigua, New York
- Production of egg boxes and disposable dishes, September 1975 [13 slides]
 - Use of foam egg cartons, Weedsport, New York, egg packing plant, 1967 [5 slides]
- Macedon, New York
- Mechanical engineers, Technical Lab, June 22, 1970 [7 slides]
 - Hefty Bag production line, June 23, 1970 [1 slide]
 - Production of polyethylene film products, August-September 1975 [29 slides]
 - Production and packaging of Hefty Bags, September 1975 [6 slides]
 - Production of disposable glasses, plates and foam egg cartons, September 1975 [13 slides]
 - Production of polyethylene film products, September 1976 [7 slides]
 - Production of film products, December 1977 [9 slides]
- Products
- Films, 1966 [2 prints]

- Hefty, 1966-1985 [4 prints; 10 slides; 1 transparency]
 Plastics, undated [77 prints]
 Wood Finishing, undated [19 prints]
- 2.104/6.3A Marcor, Inc., circa 1981 [17 prints]
 2.104/6.3B Marcor, Inc.: Container Corporation of America
 Brewton Mill, Alabama, 1976 [29 slides]
 Fernandina Beach, Florida, 1984 [4 slides]
 Marcor, Inc.: Montgomery Ward
 Annual Report, 1984 [1 slide]
 Greensboro, North Carolina, 1976 [27 slides]
 Mobil Tyco Solar Energy Corporation, 1978 [29 slides]
- 2.207/J4 Standard-Vacuum Oil Company (StanVac)
 Album: *In Commemoration of Socony's President Albert L. Nickerson's Visit to StanVac South Asia Region, February 25 – March 12, 1957* [13 prints]
- 2.104/6.3B Exploration & Producing, circa 1950s [34 prints]
 Headquarters: West Chester, New York, undated [1 print]
- 2.207/K136 Board of Directors, 1941-1962 [17 prints]
 China, 1929-1952 [7 prints]
 Resident Groups [training], 1946-1956 [50 prints]
 Slide talk, 1960 [41 slides; includes script]
 Training, 1927-1958 [13 prints]
- 2.104/6.3B Superior Oil Company
 Robert M. Allen, 1949 [5 prints]
 Oil Drilling Barge [*W. M. Keck, Sr.*], 1963 [51 prints]
 Rig in foothills of Rockies [used for 1984 Annual Report], 1984-1985 [10 slides]
- 2003-130/39 Tsinan and Shengli Oil Field [Howard Keck trip], circa March 1977 [83 prints, negatives]
 Quebrada Blanca, Iquique, Chile, circa June 1979 [25 prints]
- 2.207/J60 Seismic Operations, 1941-1942 [52 prints]
 2.104/6.3B Superior Farming Company, 1969-1975 [108 prints; 30 slides]
 2.104/6.3C Tidewater Oil Company
 Watson Terminal, Los Angeles, circa 1950s [9 prints]
 Vacuum Oil Company, 1879, circa 1920s [3 prints]
 Virginia-Carolina Chemical Corporation, undated [2 prints]
 Wadhams Oil Company
 Laboratory, undated [4 prints; 1 slide]
 Milwaukee Office, 1931, [1 print]
 Milwaukee Plant, circa 1932 [3 prints]
 Personnel, undated [12 prints]
- 2.207/K136 White Eagle Division
 1925-1930 [4 prints]
 1930-1932, undated [8 prints]
 White Star Division/White Start Refining Company

2.104/6.3C

Album, circa 1920 [36 prints]
Miscellaneous, undated [9 prints]
W. F. Hall Printing Company, 1980 [6 prints]

Aviation, 1934-1986

These photographs document aircraft used by Mobil, and its predecessors, for a variety of purposes, including executive travel and marketing. In most cases, the models of the aircraft are identified. Other aircraft images can be found elsewhere in the collection, specifically within *Marketing: Transportation*.

- Aviation
- 2.207/K51 Global Aircraft Services,
 Burbank, California, 1958, 1966, undated [3 prints]
 Mobil Oil Canada: Calgary, 1955-1979 [72 prints; 1
 negative; 1 slide]
 Chicago: MARCOR, circa 1980s [8 prints]
 Columbia [ColPet], 1957, 1959 [13 prints]
 Bridgeport, Connecticut, 1961-1968, undated [82 prints;
 negatives]
 Dallas, Texas, 1946-1973, undated [prints; slide]
 Indonesia, circa 1986 [3 prints; 14 negatives]
 Tripoli, Libya, 1957-1962, undated [31 prints]
 Morgan City, Louisiana, 1972 [23 prints]
 Westchester, New York, 1960s-1980s [prints]
 Nigeria, 1968-1971, undated [11 prints; 16 negatives]
 Nigeria and Zaire, 1965-1968, undated [25 prints]
 Jeddah, Saudi Arabia, undated [1 print]
 Singapore, circa 1975 [28 prints]
 Miscellaneous, 1986 [131 slides]
- 2.207/I48 Nigerian Aviation Department: Charles E. Morris
 Farewell, 1983 [album; 78 prints]
 Mobil Saudi Arabia, Inc., N2615, 1986 [album; 36 prints]
- 2.207/I72 Vacuum Oil Company
 Beechcraft biplane, circa 1934 [2 albums; 70 prints]
 De Havilland biplane, 1934 [1 album; 32 prints and
 clippings]
- 2.104/16.2C Company Fleet, 1930-1959

Corporate, 1880s-1999

Corporate photographs capture employees, annual meetings, and headquarter facilities in the U.S. and abroad, and include images used in publications issued by the Public Affairs department. *Personalities*, the largest group of photographs, consists of prints (primarily black and white portraits), contact sheets, and photogravures of executives from Mobil and its antecedent and affiliated companies. [See corresponding *Personalities* files in *Series I. Subject Files: Corporate* for biographical or additional information on individuals.]

Fire & Safety, 1945-1986 (bulk 1960s)

This small subseries, consisting of black and white prints and color slides, depicts Fire Safety training exercises at facilities operated by Mobil Oil Company, its predecessors, subsidiaries, and affiliates.

2.104/16.2C

Fire & Safety

Fire Training Exercises, 1945-1986

Geographic, 1866-1987 (bulk, 1900-1950)

More than 10,000 vintage and copy print document the presence of Mobil Corporation and its predecessor and affiliate companies throughout the world. Material is arranged alphabetically by country or region, and then by subject. Material for the United States follows. All aspects of the petroleum industry are represented: exploration and producing, refining, transportation and storage, and marketing.

The most significant photographs are the original prints from China and South China documenting the kerosene trade during the early years of the 20th century. They are arranged in original grouping of China and South China; the latter includes present day Bali, Java, Hong Kong, Singapore, Vietnam and the Philippines. When possible, the photographs were grouped by country if identification could be determined. Taken to document the kerosene trade in the Far East, the photographs offer incidental glimpses into another lifetime. Photographs show the daily work of laborers carrying cases and barrels of kerosene. There are prints of Asian and American personnel, kerosene godowns (warehouses), people in the streets and along the waterfronts, native and company boats, Americans and their families at leisure, and views of Hong Kong taken from the water. Other photographs depict the aftermath of earthquakes, fires, riots, and executions.

Notable among the United States section are photographs of service stations, especially those in California, Massachusetts, and Pennsylvania, which include specific dates and locations. Throughout this group, company workers are documented in both individual and group photographs. Of interest are images of drilling crews found under Exploration and Producing. Other noteworthy prints depict employees at the

Paulsboro, New Jersey, refinery and research departments in the 1940s. Activities shown are lunchtime games of baseball and quoits, and women workers who substituted for men serving in the war.

Lindbergh, Charles, 1927-1997

Charles A. Lindbergh was the first pilot to fly non-stop from New York to Paris. He landed in Paris on May 21, 1927 after flying for 33 1/2 hours. His plane, the single-engine *Spirit of St. Louis*, used Gargoyle Mobiloil, a product of the Vacuum Oil Company. Although he did not officially endorse the product, he allowed his name and photograph to be used in marketing Vacuum lubricants.

The subseries consists of more than 200 black and white prints (originals and copies), negatives, contact sheets, and a photogravure; some prints are compiled in an album, a portfolio and reports produced Vacuum Oil Company. The images are arranged chronologically: Transatlantic flight; Later flights; and *Spirit of St. Louis* motion picture stills. Photographs of Lindbergh and his plane, taken after his historic flight, are listed with the transatlantic flight.

Of note is a bound album of photographs titled *The First Flight from New York to Paris by Col. Chas A. Lindbergh*. One of only thirteen created to commemorate Lindbergh's historic flight, the album consists of 70 photographs measuring 6.5 x 9. Captions are in French and English on tissue paper between the prints. The album also contains front pages of twelve European and American newspapers reporting his achievement. [Please note that viewing the album requires advance notice.] The photographs, dated May 21 to May 29, 1927, document the enthusiasm that greeted Lindbergh in Paris and Brussels. Large crowds gathered at his public appearances; soldiers and police guarded his plane. Lindbergh met with journalists and the manager of Vacuum Oil. He also met with dignitaries, including the President of the French Republic and the King and Queen of Belgium. He was decorated with the Legion of Honour in Paris and feted at banquets in hotels and in the hangar with his plane. In Belgium he laid a wreath at the Tomb of the Unknown Belgium Soldier. Photographs also document the plane's engine, cockpit, instrument panel, and the interior of the fuselage.

There are no photographs of Lindbergh's actual flight. One photograph before the flight shows the plane being moved from the hangar before take-off. Another shows the plane under guard in Paris soon after arrival.

Three copies of *The Correct Lubrication of Aircraft Engines: Mobiloil in the First New York-Paris by Col Lindbergh* offer detailed analysis of the oil after the flight. They each contain four photographs, printed material, and schematic diagrams.

In 1997, Mobil issued a 70th anniversary portfolio of the flight consisting of nine unbound selenium-tinted prints selected from the 1927 commemorative album. Extra prints for the portfolio are with photographs after the flight.

Additional photographs document some of Lindbergh's later flights in the *Spirit of St. Louis* and in the hydroplane *Tingmissartoq*. Photographs from Las Palmas, the Canary Island, shows the hydroplane being fueled from tins as a barefoot Lindbergh climbs on top of the wing to add lubricant. His wife, Anne Morrow Lindbergh, who made the global flight with him, is shown in a print from Las Palmas.

Motion picture stills from *The Spirit of St. Louis*, released in 1955, show the actor Jimmy Stewart portraying Lindbergh and piloting a reproduction of his aircraft.

Marine Shipping & Transportation, 1880-1999 (bulk 1930-1960)

This subseries, composed of 31 albums and more than 4,000 vintage and copy prints and transparent media, documents the vessels of Mobil Corporation's marine shipping and transportation division and its affiliated and antecedent companies. Albums commemorating the launching, delivery or naming ceremonies of new ships are arranged alphabetically by ship name. Images may also document ship construction, sea trials and interiors.

Primarily black and white, prints of ships are listed by type of vessel (oceangoing, inland or geophysical), and alphabetically by name. Also included are images of personnel and miscellaneous equipment. Alternate ship names or type of ship are included in parentheses, since the company often reused or re-named vessels when the company changed names. Ships are shown both docked and at sea, and many offer incidental views of city skylines. Some images document crew activities, most notably aboard the *Tatarrax*, *La Crosse Socony*, and *St. Paul Socony*. *Multiple formats*, which includes prints and transparent media, is arranged by type of ship (geophysical vessels, tankers, inland vessels) and alphabetically by name, and includes general ship features and onboard activities.

Marketing, 1901-1987

This subseries consists primarily of vintage and copy prints used to promote and document the promotion of Mobil fuels and lubricants. Of note are images of the world famous Mobiloil Economy Runs, races staged both in the United States and internationally; and the U.S. Army Round the World Flyers, a team of three planes that circled the globe in 1924. Other images document American and international service stations, and includes gas pumps, signs, convenience stores, and station architecture. [Additional service station photographs can be found in *Geographic*.]

Transportation photographs illustrate the evolving methods of the company used to get its products to market. Highlights included images of horses and mules pulling wagons and sleds. The bulk of the transportation images show distinctive streamlined designs of the 1950s. Terminals represented belong to Mobil as well as competitors such as Sinclair, Texaco, and Esso.

Military Action, 1942-1945, 1951

This subseries covers World War II and the Korean War. Photographs from the WWII era show security officers and dogs guarding refineries; Vacuum employees contributing to the war effort; U.S. soldiers unloading petroleum supplies in Europe and the Pacific theater; and empty oil drums converted by soldiers into washtubs and ovens. Photographs from the Korean War document soldiers transferring supplies in the field, on runways, and alongside ships.

Pipelines, 1929-1984

This small subseries of prints reflects the work involved in constructing and maintaining pipelines throughout the United States for Mobil and related companies, including Magnolia Petroleum Company, General Petroleum Corporation and Socony-Vacuum Company. Men at work are documented digging trenches and welding and laying pipes. Magnolia's ceremony and barbeque to celebrate the opening of the Corsicana-to-Patoka pipeline in 1948 are also documented.

Public Relations Department Photographs, circa 1880-1993

This subseries represents a group of approximately 64,000 negatives created, organized and maintained by the staff of Mobil's Public Relations Department (later renamed the Public Affairs Department). The images document people, places, and business activities of Mobil and its antecedent companies and subsidiaries (1880-1993). The bulk of the negatives are 4"x 5" black and white. The rest are in a variety of formats; some negatives are color. The negatives are arranged in numerically by negative or project number and generally chronological.

Approximately one third of the negatives are photographic copies of vintage prints, paintings and documents. Two major sections [project numbers 5-2000 and 9744 (1-882)] are predominantly copy negatives. These images were compiled in this way due to their historical significance to the company. Subjects include petroleum exploration, drilling, marketing and transportation (1880-1945), Mobil and Socony-Vacuum executives, automobile racing, and notable figures such as Charles Lindbergh, Jimmy Stewart and Amelia Earhart. Many images were duplicated from prints and albums that may exist elsewhere in the ExxonMobil collection.

The remaining negatives consist mostly of images for corporate publications (1945-1993). Photo assignments documenting events after 1950 contain additional images beyond those that were published; in some cases large runs of serial images appear. Notable series include projects documenting Mobil participation in the Indianapolis 500 (1950-1970), speed trials on the Bonneville Salt Flats (1960s), and the Mobil Economy Runs (1930-1970).

Other notable photographic assignments document Mobil refining at Brooklyn, New York, Beaumont, Texas, and Paulsboro, New Jersey, and exploration in Venezuela, Africa, Canada, China, Alaska, the Middle East and Turkey (1948-1970). The images also document service stations in the eastern United States (1900-1970); tank trucks and tanker ships (1900-1980); Mobil headquarters in New York City; Mobil and other companies' products and emblems; the Mobil Travel Guide; ocean liner bunkering and aircraft refueling; and some assignments by long-time Mobil photographer Mike Anguti.

Field Research Laboratory/Farmers Branch, 1947-1992

These photographs – prints, negatives, slides and other transparent media – are a discrete collection documenting the research activities, facilities, equipment and personnel of, initially, Magnolia Petroleum Company's Field Research Laboratory and, later, the headquarters of Mobil's exploration research division based in Farmers Branch, a suburb northwest of Dallas, Texas. The images were originally organized using a number of different organizational systems, which have been maintained.

Miscellaneous, 1950s-1970s

Social Club dance, circa 1950s
 Drs. A. B. Spencer and S. M. Foulks, Nov. 30, 1972
 190-1 John Cooper in C-14 Lab; Lee Gibson and Cecil Kerstin with correlation Chart, Oct. 6 & 8, 1970
 202 Nat Stein and Tom Watkins Sand Flow example for *Mobil World*, June 28, 1972
 203-3800 (703-1) Photos to go with Investigation at High Pressure, High Temperature Acoustic Velocity Cell Failure (George Hollabaugh), Feb. 4, 1974
 204.1 Ray Chandler with Corrosion Equipment – Made for Recruiting Brochure (Bill McKissick), undated
 207-1 Technical Symposium Tour (Aziz Ode), April 10 & 11, 1984
 400-1 Jim Melrose, wife and daughter plus J. S. McNiel, Bill Skinner and Erin Cook – Presentation of Mobil Merit Scholarship, June 29, 1972
 401.1 Drill Test Stand during construction (Don Wilkinson), Nov. 9-29, 1961
 401.1 Jim Sexton at his work – Taken for API (Public Relations), April 3, 1967
 402.1 Field Model Centrifuge Assembly Photographs (Ralph Burdyn), undated
 402.1 Jim Cooper & Sherrod Williams in Lab with Equipment – Made for Recruiting Brochure (Ralph Burdyn), May 20, 1965
 403-130 Portable Logging Tool (W. F. Baldwin), Sept. 26, 1967
 404.1 Art Hall, undated
 404.1 John Heller experiment, 1960
 404 (802) Carl Brandner and Sam Faris for *Mobil World* story on school seminar project (Bob Canada), July 9, 1971
 404 (802) Argell Fletcher in lab for Public Relations use at Prairie View A&M (Roy Lee), Sept. 3, 1971
 406.1 Drill Test Stand (W. Gravley), undated
 406.1 Drill Test Stand (Warren Brooks), April 15, 1962
 406.1 Individual Pictures of People in Drilling Research Group (Warren Brooks), undated
 406.1 Frank Angona, undated
 406-106 LWD [Logging while Drilling] Tool Handling – out of hole (W. Gravley – Bob Patton), May 7, 1971
 406-107 Computer-controlled Drilling Operations at Drill Test Stand (Rig) (Gary Zumwalt), May 22, 1972
 406-184 Crown Block on Test Rig Drill Stand (Gary Zumwalt), May 20, 1973
 490-1 Jim Dean picked up by stretcher from course – broken leg – gag shots (C. Bell), 1967
 500.1 Visit to Lab by Soviet Geophysicists (N. P. Stevens), Nov. 16, 1965

500-1 Dr. Walt Moreman photo for *Mobil World* article (Ken Keller), Dec. 8, 1967

500-1 HDDR [Hyperion Digital Drum Recorder] Truck (S. M. Faulks), Aug. 22, 1974

500-1 Chinese Delegation visit to Field Research Laboratory (E. L. Jones and R. T. Clarke), Nov. 8, 1978

501 G. L. Koeijmons at Seismic Color Console for *Mobil World* (Roy Lee), Oct. 11, 1973

501-640 Shear Wave Vibrator Truck (Norman Guinzy), Feb. 26, 1979

501-627 Gus Bus Seismic, Cable Truck RADU Truck (Stan Laster – Bill Berridge), May 1982

502-418 JOIDES Sigsbee Deep Core (J. B. Davis – Kirkland), Oct. 10, 1968

502-450 Alice Toldan and James Belk for slides (Tom Strom), Aug. 29, 1968

504.3 Well Logging Field Trip, Midland, Texas (Warren Hicks), July 15, 1959

505-801 Sample Examination Seminar photos in class (Clif Jordan), Aug. 5 & 9, 1983

506 Paul Nixon and Ellis Bray – Special Award won by Nixon – photo for use in *Mobil World* (Roy Lee – Bob Canada), Nov. 6, 1972

506 Sand Peels – Dick Moiolg, Bob Clarke and Billy Phillips for *Mobil World* (Chase – Canada), Jan. 11, 1971

506-1 Herman Custard in office for alumni publication use, Apr. 15, 1974

506.1 Photographs of sections in Geology Group for lantern slides for AAPG [American Association of Petroleum Geologists] Talk on careers (E. L. Jones), April 1, 1966

506.1 Dr. R. L. Pierce at microscope, undated

506-205-5326 Clif Jordan at microscope with samples for report, Aug. 5, 1985

506-515 (802) Bernie Felber and Cecil Orr with diffractometer furnace (Bob Canada – *Mobil World*), Aug. 11, 1971

506-741 Coral samples from Arun (Clif Jordan), June 12, July 18, 1986

507-1 Bill Mills with Lunar Probe model for *Mobil World* (H. H. Chase), July 21, 1967

507-623 Long Spacing Acoustic Logging Tool (Joe Zemanek), Dec. 29, 1972

507-629 Interior of DC-3 (Luke Gournay), March 18, 1976

507.1 Mass Spectrometer (George Kenny), undated

507.1 Scott Allen at Borehole Model (Public Relations), undated

602 Analytical Services Instruments (Tony Ostroff), Oct. 1981 – Oct. 1984

- 607 E. B. Hartis with complete set of service pins (H. H. Chase), Sept. 8, 1970
- 703 (802) Members of the Dallas Police Reserves at the Laboratory (H. H. Chase), Dec. 22, 1970
- 704 Library – Equipment and Features (Maryann Duggan), undated
- 705 Thane Baker in Running Track Suit for *Mobil World* and publication (Thane Baker – Bob Canada), Aug. 1, 1972
- 802 Bob Sippel and Burke Spencer with rocks (moon samples) (H. H. Chase), Aug. 6, 1969
- 802 J. B. Davis and H. F. Yarbrough with Microbiology Lab equipment (H. H. Chase, *Mobil World*), undated
- 802 Tour of Lab Drill Rig by Secretaries, undated
- 802 Visit to Lab by Dr. Jacques Piccard, undated
- 802 Otis Freenay, Argell Fletcher, Anson Van Slyke; El Centro Administration (H. H. Chase), Feb. 9, 1968
- 802 Visit to the Lab by Dr. and Mrs. Leibkutsch (Roy Lee – H. H. Chase), Apr. 27, 1971
- 802 Tour of Mexican educators (Roy Lee – H. H. Chase), Nov. 16, 1971
- 802 Indonesian Ambassador with John Kelly in Mud Lab for *Mobil World* (Roy Lee), June 6, 1972
- 802 Visit by 5 members of Japanese Institute for International Studies and Training (Roy Lee), Sept. 7, 1972
- 802 Peggy Dunlap and Carl Brandner in Lab; for news releases for ACS and for *Mobil World* (Roy Lee – H. H. Chase), Feb. 28, 1973
- 802 Curtis Ebbesmeyer for *Mobil World* (Roy Lee), Apr. 30, 1973
- 802 John Kelly and Herb Singleton in Mud Lab for *Mobil World* (Roy Lee), May 24, 1973
- 802 John Lee, Clyde Reasor and Jim Covington with model of early drilling rig; for *Mobil World* (Roy Lee), June 6, 1973
- 802-1 1967-1971 Recruiting brochures, 1967-1970
- 802-1 Lucille Swindall – publicity (H. H. Chase), Dec. 11, 1968
- 802-1 Visit of Mr. Sydney Shubert, Australian Deputy Coordinator General, Queensland (Roy Lee), May 2, 1972
- 802-1 John A. Lee for *Mobil World* article on Engineering Award (Roy Lee – Bob Canada), Feb. 9, 1973
- 802-1 Visit by Vietnam delegation (Roy Lee), Dec. 7, 1973
- 802-1 Car pool push pin board; for *Mobil World* (Roy Lee), Jan. 3, 1974

- 802-1 Wayne Bell with telescope and picture of Kohoutek comet; for *Mobil World* (Roy Lee – Bob Canada), Jan. 8, 1974
- 802-1 A. W. Musgrave and Percy Pan; for article in *Mobil World* on “Bright Spots” (Roy Lee – Bob Canada), Jan. 25, 1974
- 802-1 (506) Bob Evans with map showing Continental Drift Theory (Bob Canada), Apr. 8, 1971
- 805-1 (706-4) Portraits of MEPSI personnel for career development; Carol Williams and Sally Stansbury, June 23, 1986
- 805-808 Donna Summers at Suicide Crisis Hot Line; for *Mobil World* (Sally Cotton), June 9, 1989
- 806-1 Outside of Office Building, DRD (Dee Loveless), Feb. 11, 13, 1983; Dec. 15, 1983
- 806-1 Open House for new lab (Shelia Barrington), Apr. 24 and May 1, 1983
- 809 Photos around Field Research Laboratory for MRDC brochure (Bob Canada), Feb. – Apr. 1973
- 809 Reception for R. J. Watson at Dallas Petroleum Club on his promotion from Field Research Laboratory to MEPS [Mobil Exploration & Producing Services, Inc.] (Gene Jones), Sept. 18, 1980
- 809 John Kelly in Lab with mud panel in background for *Mobil World* (Bob Canada), June 20, 1974
- 809 Aerial views of Field Research Laboratory and area surrounding FRL (Roy Lee – J. A. Lee), June 21, 1974
- 809 Louis Medlin, Paul Bery and John Fitch for *Mobil World* story (Bob Canada), July 24, 1974
- 809 Pumpkin Carving Contest at cafeteria (J. A. Lee), Oct. 30, 1974
- 809 Dwala Oliver in office, Computer Center and Lab, for possible Annual Report use (Bob Canada), Jan. 27, 1975
- 809 Auction at Drilling Rig (Roy Lee), Jul. 1, 1975
- 809 Dr. Paul P. Reichertz in office, around lab and at home; made for use on promotion to president of Mobil Venezuela (Public Relations – New York), undated
- 809 Visit to Lab by Soviet Geochemists, undated
- 809 Flange from EPS well (Benny Arnwine), Feb. 23, 1967
- 809 Flooding in newest part of Building 311, Apr. 29, 1966
- 809 Dr. J. S. McNiel, Tittle and Windham – gift of Van de Graaff generator to Southern Methodist University and North Texas State University (H. H. Chase), May 13, 1968
- 809 Photos for *Mobil World* article on Field Research Laboratory requested by Tony DeNigro (Roy Lee), Feb. 16, 1972

809 Training section class in progress for *Mobil World*
 (Bob Canada – Roy Lee), Nov. 16, 1972
 809 Community Chest Tour, 1958, 1962-1964
 809 Snow around Lab, 1963
 809 Donna Hartman; for college publicity, undated
 809 Exterior views of front of lab, circa 1960
 809 P. P. Reichertz, E. S. Wilhelm and L. T. Cooper in
 front of shop and warehouse building under
 construction; for *Mobil World* (H. H. Chase), Jan. 3, 1963
 809 Rescue Squad, June 1958
 809 Public Relations, Feb. 1958
 809 Start of construction, 2nd floor, Building 311, Oct. 1,
 1961
 809 Social Club Picnic, June 27, 1959
 809 Office portrait – Dr. Paul P. Reichertz, Oct. 9, 1961
 809 Lab Open House (Herbert Chase), Aug. 26, 1962
 809 (406-109) Logging truck (R. J. Watson), June 20, 1977
 809-1 Open House for J. S. McNiell, leaving for Mobil
 Tyco in Waltham, Massachusetts (Dick Barham), Aug.
 23, 1974
 809-1 Mr. M. Modir, General Manager, National Iranian
 Oil Company, visit to Lab (Roy Lee), Jan. 14, 1974
 809-1 Photos of Bill Byington (Bob Canada), May 20, 1974
 809-1 Henry Marconi with his horse, Sandy, for *Mobil*
World (Bob Canada), May 23, 1974
 809-1 Joe Messenger with raincoat and hard hat – in rain
 – to simulate Sumatra (Bob Canada), June 12, 1974
 809-1 R. J. Watson in his office – for use with *Mobil World*
 interview (Bob Canada – Dave Burke), Mar. 10, 1975
 809-1 Visit by Mr. J. M. Flower, director of Petroleum
 Information Bureau of Australia (Roy Lee), Oct. 17,
 1974
 809-1 Indonesian Minister on tour through Lab with E. L.
 Jones, Alex Massad, et. al. (E. L. Jones), Oct. 10, 1984
 809-1-4299 Individual photographs of all non-technical
 employees (H. H. Chase), Aug. – Oct. 1975
 809-601 Computer move from Field Research Laboratory
 to Dallas Baptist College (George Weatherly), Jul. 17,
 1975
 909-1 New Lab Site, Farmers Branch (Jerry Gleason), Dec.
 8, 17 and 20, 1979

 51282: Portrait – Ross Huntley, 1989
 51286: Portrait – Jeff Lenihan, 1990
 51287: Portrait – Terry Young, 1990
 51289: Portrait – Melinda Seals McDade, 1990
 51290: Portrait – Amy Davis Procter, 1990
 51291: Portrait – Ranga Ranganayaki, 1990
 51293: Portrait – Leigh Norikus, 1990
 51298: Portrait – Wayne Stewart, 1991
 51299: Portrait – J. M. (Mark) Ponton, 1991
 51299: Portrait – Barbara Wallis, 1991
 51303: Portrait – Y. Y. (Evelyn) Pan, 1991
 51304: Portrait – R. K. (Rachael) Ho
 51306: Portrait – G. A. (Greg) Zelewski, 1991
 51307: Portrait – L. L. (Luke) Liu, 1991
 5229: Portrait – Mark Northam, 1981
 5244: Portrait – Randall Harris, 1984
 5248: Portrait – Brock Toon, 1984
 5249: Portrait – Wilson Orr, 1984
 5257: Portrait – Sheldon Sommer, 1985
 5267: Portrait – Mark Northam, 1986
 5268: Portrait – Maureen Nault, 1987
 5273: Portrait – Ida Turner, 1987
 531: Microbiology with Barney Davis for Annual Report
 of 1963, 1964
 532: Slides for Geology course, 1964
 533: Centrifuge, 1964
 534: Portrait – J. B. Davis, 1964
 535-536: Slides of two charts on Mobil-University of
 Texas Unit #1, 1964
 537: Slides [data and charts], 1964
 538: Black & white dupes of 35mm slides – J. B. Davis,
 1964
 5310: White crystalline wax, 1965
 5311: Stirred membrane cell, 1965
 5312: Copies of photographs from Zobell and Emery,
 1965
 5313-5315: Slides [data and charts], 1966
 5316: Debris on microscope slide covers, 1966
 5317: Slides, 1966
 5318: Copy of figure, 1966
 5319: Portrait – R. A. Noble, 1966
 5320: Portrait – H. C. Custard, 1967
 5321: Laser Damaged Samples, 1967
 5322: Program on IBM 2250, 1967
 5323: Portrait – Bill Pearn, 1968
 5324: Portrait – George Marusak, 1969

5325: Portrait – Judity Herndon, 1969
 5326: Optical bench for CO2 laser, 1969
 5327: Copies from book *Surface Microtopography*, 1970
 532: Portrait – Peter Hennings, 1990 Summer Student,
 Geology / Geochemistry, 1990
 535: Sand and clay model apparatus, 1991
 536: Portrait – Lee R. High, 1991
 5571: Portrait – Patty Joyce, 1987
 561: Recorder, 1954
 562: Copy of Foraminifera Chart, 1957
 563: Core for Palynology, 1957
 569: Geology Group personnel and Cecil Kersting, 1959
 5610: Copy of Engineering Drawing, 1958
 5612: John Grayson with Winnie Sallee – Palynology,
 1958
 5613: Portrait – A. B. Craig, 1958
 5614: Sample holder and X-ray diffraction patterns, 1958
 5618: Core for Palynology – Eagleford near Quitman,
 Texas, 1958
 5619: Portrait – John Grayson, 1958
 5621: Core for Palynology – Eagleford near Waco, Texas,
 1959
 5623: Instruments in Palynology lab – stirrer and shaker,
 1959
 5624: Winnie Sallee receiving Honorary Texas Citizen
 Certificate – Jack Brineman, Margaret Bryson, Winifred
 Sallee, 1959
 5625: Splitting device used for separating fossils, 1959
 5626: Dredge device for taking samples from marine
 floor, 1959
 5627: Moseley Computer, 1959
 5630: Portrait – Bill Brown
 5632: Magnolia University, 1959
 5633: Portrait – Bill Jenkins, 1959
 5634: Slides – Palynology Talk – Jake Gerhard, 1959
 5635: Recent sediment core, 1959
 5636: Plotter, 1959
 5637: Research Organization Chart, 1959
 5638: Copies of Polospore Plattes, Minnesota Geological
 Survey Bulletin #2, 1960
 5639: Chart of stratigraphic and structural traps, 1960
 5640: Polospore slide, 1960
 5643: Portrait – Henry Nelson, 1960
 5651: Portrait – R. L. Pierce, 1961
 5652: Portrait – Eugene Jones, 1961
 5654: Portrait – Lee Gibson, 1961
 5656: Austin Creme Limestone Core, Sections #14 and
 #15, 1962

5659: Macrophotographs of pseudomorphs of vaterite after anhydrite and gypsum, 1962
 5661: Portrait – Volkmar Schmidt, 1962
 5665: Slides – David Lawrence – Paleocology, 1963
 5666: Palynology Lab with Jake Gerhard, Ken Moore and Jack Wall, 1963
 5667: Portrait – Jerry Wermund, 1963
 5668: Mica flakes at 2X magnification, 1963
 5669: Athigenic silicate minerals from the Esmeralda Formation, Nevada, 1963
 5673: Palynology file of slides with Bob Clark and Jake Gerhard for Annual Report of 1963, 1964
 5678: American Petroleum Institute meeting – Toronto, 1964
 5680: Passport photo – George Esker, 1964
 5687: X-ray diffraction films, 1964
 5689: Passport photo – J. E. Gerhard
 5691: Cores – first core upstairs, 1965
 5694: Bell Mill Device used in preparation of paleontological samples, 1965
 5695: Cores – second core in studio, 1965
 5696: Portrait – Axel Tan, 1965
 5698: Portrait – Henry Nelson, 1965
 5699: Maps of Silver Park Region, Nevada, 1965
 56103: Cross-bedded sandstone from Knoxville, Arkansas, 1965
 56104: Slides [gypsum crystals], 1965
 56108: Portrait – Volkmar Schmidt, 1966
 56109: Fossilized grinding plate of shark-like fish, 1966
 56278: Portrait – G. Shanmugam, 1978
 56333: Portrait – Dick Moiola, 1981
 56355: Portrait – Lowell Waite, 1982
 56356: Portrait – Dick Moiola, 1982
 56361: Portrait – Cliff Jordan, 1982
 56371: Portrait – Doug Kirkland, 1982
 56377: Portrait – Lowell Waite, 1983
 56382: Portrait – Donna Summers, 1983
 56383: Microscope and closed-circuit video, 1983
 56386: Portrait – Cliff Jordan, 1983
 56387: Kupaaruk Formation – North Slope Alaska, 1983
 56389: Portrait – Marge Stockton, 1983
 56392: 4 Plates of SeM photographs of critical point dried samples from Anschutz Ranch Field Colorado, 1983
 56393: Critical Point Drying Apparatus, 1983
 56397: Geology Group, 1983
 56398: Copy of illustration for report – Chester Sands, Kansas, 1983
 56400:
 56401: Leitz Microscope Photometer System, 1984

56402: Rancho Rojo, 1984
56415: Portrait – Donna Summers, 1985
56417: Portrait – Jim Markello, 1985
56419: Portrait – Cindy Kalkomey, 1985
56421: Portrait – Dick Nishimori, 1985
56425: Portrait – John McPherson, 1985
56428: Portrait – Joana Vizgirda, 1985
56431: Portrait – Dirk Koepnick, 1985
56432: Portrait – Don Tate, 1985
56436: Portrait – Eric Peterson, 1985
56437: Display cores for Sandstone Seminar, 1985
56440: Mobil Mawai A-1 Indonesian core slabs, 1986
56441: Portrait – John Wickham, 1986
56442: Samples in holder with thinsection and figure,
1986
56444: Caprock slabs with and without glycerine, 1986
56448: Pyrite concretion samples from Woodford
Formation, Oklahoma, 1986
56453: Typical phosphate modules, 1986
56455: Fluorescence microscope in Fluid Inclusion Lab –
I104, 1986
56464: Portrait – Dick Moiola, 1986
56467: Portrait – Joana Vizgirda, 1987
56468: Portrait – Doug Kirkland, 1987
56475: Portrait – Michael Ray, 1987

EXXON CORPORATION, 1890-2000

Series IV. Photographs, 1890s-1998 (bulk 1930s-1960s)

This series consists of more than 2,700 vintage and reproduction photographs and negatives from Exxon Corporation and its antecedent companies, most notably Humble Oil and Refining Company and Carter Oil Company. Photographs are arranged alphabetically by topic, including geographic area; most are black and white. Some overlap of topics exists in the overall arrangement. Due to the large volume of material from Humble, these photographs are not listed with Affiliates but rather in its own subseries. Additional Carter and Humble photographs follow the Terminals subseries.

Affiliates, Subsidiaries and Other Companies, circa 1890s-1991 (bulk 1926-1950s)

These photographs are from companies related to Exxon antecedents and later subsidiaries. Of note are the photographs of the Anglo-American Oil Company showing horses hitched to tank wagons and in a stable with their handlers. A photograph from Hammersmith shows horses and men gathered around the bulk plant's first petrol driven tank truck.

Anglo-American became Esso Petroleum Ltd. in 1935. Noteworthy Esso Petroleum photographs document the Fawley Refinery exteriors and interiors, including the coopeage and the clinic. Activities documented are the transferring and loading of asphalt into a tanker and the bunkering of an ocean liner. Also of note are the photographs documenting the construction of the Milford Haven refinery. Other interesting Esso Petroleum photographs depict men at work in various exploration and production endeavors in the United Kingdom.

Other visually appealing photographs are those from the Carter Oil Company in the 1950s. Prints in the Exploration and Production subseries document workers chiseling rock samples, setting off seismograph charges, reading instruments, and traveling in the mountains on skis or on horseback. These photographs also contain views of mountains, wheat fields, and ancient cliff dwellings. In the General subseries are images of exhibits that Carter created to illustrate oil production as well as personnel speaking to students and other groups.

Humble Oil and Refining Company, 1903-1970s (bulk, 1910s-1960s)

A large portion of the Exxon photographs originated from the Humble Oil and Refining Company. Humble Oil Company was a Texas affiliate of Standard Oil Company (New Jersey) until 1959 when all domestic operations were consolidated under Humble Oil and Refining Company, newly incorporated in Delaware. Prints in this subseries are arranged alphabetically by topic, using the subject headings given by the Humble photo library where possible.

Most notable are photographs for general Exploration and Production (1903-1958). Though largely lacking dates and location names, these photographs document many of the activities associated with this type of work: scouting prospective sites, setting off seismograph charges, drilling, and moving supplies and equipment. Camps and other company housing are depicted.

Also of interest are individual and group photographs of Humble personnel. Photographs in this group (1910s-1960s) often lack dates and other identification, but they reflect the camaraderie of the employees gathered at work or leisure. The Florida Events and Groups (1961-1967) document Humble's expansion to the Florida market and include retail school graduations, banquets, award ceremonies, and ground breakings.

Some of the photographs used in *The Humble Way* in the 1950s and 1960s are listed under the headings of Outside and Miscellaneous.

Sales (Humble), 1940s-1950s

Photographs in this subseries retain the Sales designation assigned by the Humble photo library. They cover a wide range of topics and activities. Of note are the photographs documenting cameramen in press boxes and on the field recording Southwest Conference football games, as well as commercials and other films. Other Sales photographs show barrels of products stacked in warehouses, tankers at bulk stations, office workers, Humble service stations, sales meetings, aviation fueling, and billboards. Most prints have original cataloging numbers but lack exact identification.

Marine Shipping, 1903-1989 (bulk, 1950s-1970s)

This subseries consists of photographs of oceangoing and coastal tankers belonging to Exxon and its antecedent companies. Most photographs are undated. They are arranged first by albums commemorating the construction, delivery, or launching of ships. Following albums, photographs are listed by type of ship: coastal tankers, oceangoing tankers, and sailing vessels. Ships are listed alphabetically by name. The few without "Esso" in their names were assumed to belong to Esso and are interfiled accordingly. Listed after the tankers are ships damaged in World War II, Esso sailing vessels, and the Esso Marine Research and Training Center where sea captains trained in models of tankers.

Notable in this group are two albums showing the aftermath of the March 24, 1989, oil spill of the Exxon Valdez. The photographs, with accompanying text, compare shorelines on six islands after the spill and after clean up.

Also of note are photographs of the ice-breaker *Manhattan*, a tanker designed to travel through the ice of the Northwest Passage to transport oil from Alaska's North Slope in 1969. Photographs show the construction of its ice-breaking bow, testing with a model ship on an icy lake, and many of the engineers and crew involved on the project. Other highlights in Marine Shipping include the construction, launching, and delivery celebration of the Esso Pembrookshire in 1961 and the crews and sailing vessels of the Anglo American Oil Company from 1903.

The miscellaneous photographs at the end of the listing came from Esso Marine Shipping. Though interesting, they have no discernable relationship to the company.

Research and Engineering, 1944-1986 (bulk, 1950s-1970s)

This subseries of material documents the personnel and buildings of Esso Research and Engineering (ER&E), later known as Exxon Research and Engineering. The General section shows researchers in laboratory settings. Field research is also documented, including testing products in irrigation projects, oil dispersants in seawater, and sand dune stabilization. Most photographs were taken in the U.S.; some were from Abingdon, England (for Esso U.K.) and Sarnia, Ontario (for Imperial Oil). Many of the prints have explanatory captions.

Storage Tanks, undated

This small subseries shows tanks for storing oil and natural gas. Most prints lack dates and location names.

2.103/1.3B Storage Tanks, undated [28 prints]

Terminals, 1930s-1970s

Prints in this group show trucks at the loading docks of different terminals.

2.103/1.3B Terminals, 1930s-1970s [5 prints]

Transportation, 1924-1991

This subseries consists of prints of oil tanker company trucks, trailers, airplanes, and other vehicles bearing the names of Standard Oil (of New Jersey), Polarine, Esso, Standard, Enco, Exxon and other affiliates. Close-up views and schematic diagrams of some vehicles are included.

2.103/1.3C Transportation, 1924-1991 [291 prints]

Humble Oil & Refining Company / Carter Oil Company, 1932-1978 (bulk 1951-1959)

This subseries of material came from both Carter and Humble and comprises approximately 24,000 prints, contact sheets, negatives, and slides, with black and white negatives being the largest component. The material depicts a wide range of activities, events, and facilities associated with the two companies from 1948 to 1969. The images were used in company and trade publications. Much of the material is undated; no key to the unique numbering system exists. Included are also a few images of Exxon facilities from the 1970s.
